Being one of the few that are left in this place, I

agined I could impart some little information

trich might be acceptable to you.

Norfolk at this time does not contain more than acceptable of her inhabitants, and a number of these we been subjected to the billous fever. This com-aint has been more severe than at any previous ason, and if not attended to in time in many in-

tances proves fatal.

There are not twelve stores, to my knowledge, open in the whole place, save three or four for the sale of drugs. The disease is not confined, as here-tofore, to one locality, but has spread itself entirely

over the city.

Among those who have died within the last thirty Among those who have died within the last thirty hours are:—A daughter of Capt. Barron, U. S. N.; this gentleman lost his wife some days age, and is himself just recovering from the disease; Mrs. Taylor; Oliver Ellworth, aged 45; Josephine Allen, 28; Sarah Pugh, 25; Wm. Sclater, 28; — Grigg, 28; Wm. Banks, (colored,) 25; Alfred Trader, Josiah Ship, Capt. Stark. U. S. M., Thos. Mebegan, Thos. A. Keeling, — Hess Baker.

We had a severe thunder storm here last evening; it still continues to rain—favorable for the spreading of the disease. The lightning struck two houses on Fair Ground and burned them down.

There arrived here yesterday, in the steamer from Baltimore, three Sisters of Charity, and a young lady—Miss Apna M. Andrews—from Syracuse, New York, to effer their services to take care of the sick. Such disinterested kindness will long be remembered by the people of Norfolk.

At the hospital on Lambert's Point, for the past three days, there has not been a single death. This looks favorable. Dr. Wm. Wilson has been appointed resident physician.

Portsmouth presents a more animated appearance. On High street many of the stores have opened again and business is looking up.

The people of Northampton and Mathews counties have been the only ones who have not closed doors against us during the prevalence of the dister. They have even exhibited feelings unexambed elsewhere.

The poor in our place and Portsmouth are suffering for the actual necessities of life, and provisions

The poor in our place and Portsmouth are suffering for the actual accessities of life, and provisions
ire beth high and scarce.

The people of Baltimore and Petersburg have sent
tas supplies of provisions and money. Many places
surrounding are making arrangements for the same
purpose.

and the City Hospital, and saw many of the sick in Norfork.

Dr. Stone expresses the opinion that the fever is not a
general epidemic in Norfolk. He thinks that the patient
should be covered with a sheet and thin blanket, and
that the treatment should not be too active.

Dr. Thos. Peniston, a distinguished physician, also of
New Oricans, arrived yesterday, and tendered his services to the Board of Health. He visited several cases
in the city during the morning, and in the afternoon
went down to the hospital at Julappi.

The Norfolk Argus of Staturday, Aug. 18, thus alludes to the flight of the citizens of that place:—

So general and precipitate a flight as that which has recently taken place here we never expected to winness. The thought of disease and sudden death, the innoviedge of an existing pestilence, we know are appalling to sinful man, and an instinctive love of health and life naturally hurries him away beyond the limits of the destroying agent to a purer atmosphere and a healthier clime. The strong man, in his prime, dreads the presence of an air that poisons the flieblood and kills in a day; and oven the sincefe Enristian feets soleton when he reflects upon so rad a health loves. But should the intention by, too, from the danger, at the very time when their presence is most required?—when their words of Arleo, instruction and comfort are so necessary—when nursing and watching are so much needed? "I was sick, and ye visited me not."

Furely, if there ever was a time when the true disciples of Christ should be active, and in the line of their duty in Norfolk, this is the time; for verily, "the postlionee walketh in darkness, and the destruction wasteth at noonday." Our friends, neighbors and acquaintances are prostrated by disease—burning with fever, and tortured with pains; and how important the soothing words of the Christian at such a time! But among the most paine-struck, the most larred, the most eager to hasten away, there were hundreds of professors; and many indeed who are wont, in days of

NO SICKNESS IN MICHMOND.

[From the Richmond Disputch, August 18.]

From the numerous rumors put into circulation throughout the country, by gnorant alarmists or interested parties, it is the common belief abroad that Richmond is infected with much disease, and that it is somewhat risky to come here. We have been informed by a medical friend—a practitioner of this city and a native-that he has made it a matter of business to ascertain the true state of the public health at this time. He has been informed by his brother physicians doing the largest practice, that they have rarely ever known so few peoplesick at any season of the year as there are at present.

Our friend went to the principal druggists and examined their file of prescriptions. The principal prescription house, one which supplies chiefly a large and populous district of the city, had put up sixteen the day before. Three other large prescriptions conclusive evidence of the utter want of foundation for the injurious and stupid rumors about the sickness of Richmond, August 16, 1855. ]

RICHMOND, August 16, 1855.

From the numerous false rumors that I have heard in this city, in regard to the prevalence of the yellow fever here, and which have gone to the country greatly exaggerated, I deem it due to truth, and the distinction. this city, in regard to the prevalence of the yellow fever bere, and which have gone to the country greatly exaggerated, I deem it due to truth, and the city itself, to make this statement. There is no part of Richmond that I do not personally see at least once a week—often three times. Every morning reports are made to me by the officers of the police, as to its health. I am in daily intercourse with many medical gentlemen of the largest practice, and from these opportunities of knowing the general health of the city, I say, unhesitatingly, it was never better, and that the city is now freer from all causes gonerating or propagating contagious or infectious diseases than it ever was since my residence here, commencing in 1815. It is undoubtedly true that eight cases of yellow fever have been in the city since the 4th inst., but in every instance the patient came direct from Gosport or Portamouth. Seven out of the eight had it on arrival. The following are the persons, all of whom were immediately sent to the hospital:—S. T. Lynan arrived sick on the 4th, died on the 10th; Thomas Totty arrived on the 8th, died on the 18th, islen Casy arrived on the 8th, died on the 18th, both living and likely to recover; Margaret Hughes arrived on the 8th, sick, recovery doubtful; Jas. Muldow arrived on the 8th, and now ill.

These are the only cases of yellow fever that have occurred in this city, unless young Landreth, also direct from Gosport, died with it. His physician, however, (one of our most eminent practitioners) informed me that his was not a case. I assure my fellow-citizens of Richmond, and the public generally, that these are the only cases of yellow fever that have yet occurred here, so that ne citizen of Richmond or other person, not direct from Gosport or Portsmouth, has had it or any symptoms of it.

Terrible Riot Among the Baltimore Firemen.

(From the Baltimore Sun, August 20.)

TWO MEN MORTALLY AND REVERAL OTHERS SERIOWNER MORTALLY AND REVERAL OTHERS SERIONE of the most serious and disgraceful riots for a
long time known to our city occurred on Franklin street, between Howard and Eutaw streets, between the New Market and United fire companies,
on the one side, and the Mount Vernon hook and
ladder company on the other. As is well known for
some time past a difficulty has existed between the
New Market and Mount Vernon companies, and that
on Wednesday night last they came in collision
while returning from the fire at the Cattle Show
grounds, when a reel belonging to the former company was partially destroyed by those with the apparatus of the latter and their friends. Since that
time there has been every indication of a serious
struggle between them, though they have been kept
in check by the police, who were always on the
watch, in consequence of the anticipated rupture.
Notwithstanding their vigilance, however, they have,
at last, succeeded in their disgraceful designs, and
the result was the mortally wounding of two men
and the serious injury of a nursher of persons, many of whom are said to have been lookers on at the
fray.

It is alleged that the alarm, which was false, was

the result was the mortally wounding of two men and the serious injury of a nursher of persons, many of whom are said to have been lookers on at the fray.

It is alleged that the alarm, which was false, was sounded by the bell of the New Market Company, and that a large crowd immediately proceeded from their house up Eutaw street, rallying under the cries of New Market and United, the crowd being made up of runners and members of both companies. At the place above mentioned they came in contact with the Mount Vernon, which was proceeding down town, when a most sanguinary conflict ensued, pistols, bricks, clubs, and in fact every dangerous missile that could be secured by the rioters being freely med.

In the beginning of the fray, officer Burkins, who was in the midst of the rioters, endeavoring to quell the disturbance, observed a man pointing a pistol directly at him, but before he could fire the officer had stepped to one side and the ball struck a young man named Charles Ellis, aged about 21 years, who resides in South Paca street, near Fremont. It entered under the left car and passing directly through lodged in the opposite side of his head. The wounded man was immediately taken to the drug store of Mr. Perkins, near by, by officer Smith, where he was attended by Drs. Chatard and Kloman, after which he was carried to his residence by officers Charles Brown and Miller, where he now lies in a hopeless condition, his physicians deeming his recovery impossible.

Officer Burkins succeeded in arresting Minnie Johnson, alias George Jones, the person said to have fired the pistol, and he was committed by Justice Megee for a further examination. Both he and Ellis are said to be members of the United Fire Company, which leaves the inference that the shot was designed for the officer.

George Kemp, aged about twenty-one years, who resides in Franklin street, near Fremont, received a ball in his left breast, which passed through the lung and lodged in his back. He was carried to the office of Dr. Donavan & Son, by of

grazing his head and striking an unknown man standing directly behind him, who was supposed to be one of the party with the Mount Vernon apparatus.

Another man, who was standing upon the pavement a short distance off. received a ball in his head, but was able to get off before his name could be ascertained. Three others—two white men and the other a negro—were also wounded while looking at the riot. One of the white men received a ball in his left shoulder, the other in the groin, while the negro was wounded in the leg. We were unable to ascertain their names, as they immediately left for home at good speed.

Several others were observed to leave the ground wounded from pistol shots, bricks, &c., and it is thought that at least twenty persons were wounded by pistol shots, as a continued fire was kept up for about five minutes after the commencement of the fray, when the police and watchmen of that section succeeded in separating the combatants. Officers James, Plowman, Hough and T. Airey were injured by being struck with bricks, though none of them seriously.

John Watson, John Kelton, Howard Davis, Minnie Johnson alias George Jones, Chas. Nally, Joseph Denson and John Smith, were arrested for participating in the riot by officers Saville, James, Merriken, Burkins and Hines, and watchmen Gordon and Bailey, and all except Denson, who was held to answer, committed to await a further examination for their prompt and decisive action and unflinching courage, as it was at the most imminent peril that they performed their duties, the crowd being for the most part armed and incessantly firing. Several of them may be a several of their assailante, every portion of it being completely riddled and cut by the balls fired at those with it. Indeed, it is a matter of surprise that more were not injured from the number of shots that were exchanged.

At about the same time of the occurrence of the above frightful riot, the Vigilant and Lafayette fire companies came together at the corner of Baltimore and High streets, where so

was sounded by the bell of the Lafayette, and upon the Vigilant proceeding to that section, another conflict ensued between them, which was only prevented from resulting seriously by the prompt appearance of a large police and watch force.

Some prompt action is necessary on the part of the authorities to put an end to these disgraceful exhibitions, as they not only tend to render inefficient the operations of peaceable fire companies, but reflect shame upon them as well as our city.

DEATH OF HON. FHILO C. FULLER.

We learn from the Rochester Democrat that this gentleman died at Rose Hill, near Geneva, the residence of his son-in-law, Samuel S. Fuller, Esq., on Thursday morning at eight o'clock. Mr. Fuller has suffered from a chronic difficulty many years, and it has at last ended his life. The deceased was an early settler of Livingston county, and is generally known in all that section. In public life he has been distinguished, having held the most honorable stations, and been entrusted with high State interests. He was once Assistant Postmaster General, Speaker of the Michigan House of Representatives, and State Comptroller. Latterly he has been extensively engaged in agricultural pursuits in Livingston county, an occupation which he doubtless found productive of more happiness than the most elevated public station.—Albany Register, Aug. 2.

POST MORTEM EXAMINATION OF THE BODY OF MR. LAWRENCE.

POST MORTEM EXAMINATION OF THE BODY OF MR. LAWNENCE.

[From the Boston Advertiser, Aug. 20.]

We learn that on a post mortem examination, under the superintendence of Jacob Bigelow, M. D., the medical attendant on Mr. Lawrence during his illness, the following indications of disease were discovered. The liver and gall bladder were found adhering to the large intestine and to the wall of the abdomen. In the midst of this adhesion was an ulcerated cavity, which had found an opening at one extremity into the base of the gall bladder, and at the other into the ascending colon. There were ulcers in the stomach, and in the upper part of the small intestine, the former of which had so nearly perforated the coats of the organ that a probe was passed through without sensible resistance. There was disease of less magnitude in the kidneys and some other organs.

Theatres and Exhibitions.

Broadway Theatres—The excitement and desire to see the Gabriel Favel troupe of pantominists and the Martinetti family in their feats of strength and gymnastic exercises, is still unabated. The entertainments are, indeed, of a character well calculated to please the visiters of the Broadway theatre, to whom the ballet and pantomine are a novelty. Mile. Celestine Franck appears this evening for the second time, in her great original character of "Satanita," the title of a new pantomine composed by, and prodeced under, the direction of M. Cellet. Gabriel Ravel and Wells perform in the "Coopers," a capital thing in its way. Between these two pieces, I and P. Martinetti give one of their stilletic representations, called "The Wresters,"

NREO'S GARDEN.—The engagement of Burton is fast drawing to a close, Friday evening next being the last occasion on which he is to appear at this theatre. The following are the titles of the pieces to be played tonight.—"Blue Devils, or the Grumbling Englishman;" "John Jones, or the Man Hunted by a Friend," and the ever popular farce of the "Wandering Minstrel." In each of these Burton is the great feature. To-morrow evening the Pyne and Harrison troups give "Cinderella" again.

Bowery Theatre.—The benefit of Mr. R. Johnston comes off to-night. Lord Byron's fine play of "Werner" is to be produced on this occasion. Besides this, Mr. and Miss Charles will appear in "Irish Assurance and Yankee Modesty." The whole will conclude with, first time here, the "Firate Ship," Mr. Johnston as Mat Maintop.

Microfournan Theatre.—A rich treat is promised the public to-night. To-morrow he will repeat his Faistaff in "King Henry IV."

Woon's Ministrains give one of their select performances to-night, among which is the "Shaksperian Festival."

The Buckley's Skelnadose will respect a feet a very successful tour through the neighboring States, on Monday evening next, at their old hall in the Chinase Assembly Rosses in Broadway. On this occasion a new American pera, written b

Our election for Governue, Licutemant-Governor, Congress and Legislature, came off on the 6th 1: d. The counties—ten or twelve in number—so far as hen. I from, embrace some of the Know Nothing sironghoit, ... cituding the present and late residence of Sam Hous. 4, where he has long been all powerful. The returns power that Sam is down at home; the vote is about ball-need in his own county (Washington), and he carries his ante county (Washington) and he carries his ante county (Washer) by barely 6 votes.

Bell, democrat, is undoubtedly re-elected to Congress by a large wote. We think Pease, democrat, is re-elected Governor.

In Galveston the whole democratic ticket is elected by a large majority. Colonel John Heary Brown, of the Critism and Gazett, is the foremost man for the Legislature, and Sherman is the other member.

In Houston a democratic Senator and two Representatives are triumphantly elected. Representatives at Brownsville the same; Brayoria and Richmond the same. Our returns are scattering, but the democracy are in high spirits. Texas is true to the constitution and the Union.

Fartial returns (3 o'clock P. M.) from ten or twelve counties, embracing some Know Nothing strongholds, indicate the election of the entire democratic State ticket by a large majority.

John H. Brown and L. Sherman (dem.) were elected by 152 majority, to the Legislature, from Galveston.

Brownsville (Rio Grande) elected Latham and Nichols (dems.) by a large vote.

Harris county (Houston) elected a democratic Senator and two Representatives.

Fort Bend and Bratoria, the same.

Washington county, the residence of Gen. Sam. Houston, elected Warren (dem.) and Loyless (K. N.)

Walker country (Houston) elected to the Senate from the counties of Walker, Grimes and Montgomery.

Ilberty also elects the democratic ticket.
